

CM X-Ray Mattress

CM ProLine

We deliver mattresses to several leading X-ray companies.

PRODUCT INFORMATION

CM X-Ray Mattress is a comfortable mattress manufactured in different sizes and thicknesses in order to fulfill a varied demand of X-ray mattresses.

CM X-Ray mattress is manufactured in two different thicknesses (2,5 and 3 cm). The mattresses with a thickness of 3 cm are manufactured with a surface of PU-fabric, a underside with low friction attributes and eight handles which facilitates simple adjustments when needed.

The Mattresses with a thickness of 2,5 cm are mainly intended for use in MRI-scanner. These mattresses are manufactured with PU-fabric without low friction underside or handles.

All mattress cores consists of a combination of viscoelastic polyurethane foam and a layer of EVA-foam.

- **COMFORTABLE**
- **DURABLE**
- **ERGONOMIC**

Cleaning and disinfection

Disinfect with alcohol and/or soap solution. Remove blood stains as soon as possible with cold water.

Safety instructions

- Be careful when transferring patients to and from the X-ray mattress.
- CM X-Ray mattress are not made for lifting patients on the mattress.
- Consider patient individual risk of developing pressure ulcers in case of long examination times.
- Clean and disinfect the mattress according to given instructions in between patients.
- Examine the mattress regularly for damage. Damaged mattress should not be in use.
