## PRODUCT DESCRIPTION

CM Proline offer a variety of comfortable knee cushions. Main objectives and purpose are hygiene, ergonomics and comfort. Knee cushions are available in a range of shapes to cover all needs of positioning. All knee cushions are covered in outer material that can easily be cleaned. Knee cushions in artificial leather are delivered with ergonomic handles.

**Cleaning instructions:** Disinfect with alcohol and / or soap solution. Remove blood stains as soon as possible with cold water.

**Recycling:** No disassembly required. Sort as combustible waste.

**Other:** Upon request the knee cushions can be adjusted for MRI environment.
