

CM TraumaCover

CM ProLine

PRODUCT DESCRIPTION

CM Trauma Cover is a single use cover for trauma mattresses. The package contain cover, two cheek-forehead straps and a fixation cushion for the head. The material properties minimize heat loss for the patient and contributes to better hygiene standards. The inside of the cover is absorbing, the outside is waterproof. Therefore the use of CM Trauma Cover drastically reduce the need of cleaning.

The head fixation allow a simple and secure fixation of head and neck. The head fixation is integrated with the Cover. The cushion is easily applied onto the cover.

CM Trauma Cover is available in child version and adjusted to the CM Trauma Mattress Mini.

User Guide CM TraumaCover

1. Pull the cover over the top (head) end of the trauma mattress. Stretch from the foot end.

2. Tighten the velcro straps firmly around the top (head) end.

3. Place the cushion tight around the patients head, the velcro fixates on the cover. Long hair should be pulled in under the neck collar if possible.

4. Fixate the patients head with the white cheek-forehead straps. The straps should be fixated against the velcro on the cushion and cover.
